

#### Electrical

|                       |                  |
|-----------------------|------------------|
| Impedance             | 50 ohm           |
| Frequency Range       | 21.7-33.0 GHz    |
| VSWR                  | 1.05 max         |
| Input Avg Power       | 0.5 Watts @ 25°C |
| Operating Temperature | -40°C ~ +70°C    |

#### Mechanical

|                    |              |
|--------------------|--------------|
| Waveguide Size     | WR34(R260)   |
| Flange Type        | IEC: UBR260  |
| Waveguide Material | Copper       |
| Waveguide Finish   | Grey painted |

#### Dimensions(mm)

## Typical Test Data
