

# HUBER+SUHNER® ANTENNAS

## Security Instruction

### Disclaimer:

#### Product data

All product data is non-binding and subject to change at any time.

#### Product performance

The products of HUBER+SUHNER are tested in a laboratory environment against specific standards and test procedures and guaranteed to this level of performance. Any guarantee for exceptional applications or environmental conditions is subject to special request.

### ESD (Electrostatic Discharge) and Over-Voltage Protection

If a HUBER + SUHNER product is marked with an ESD label, protection against electrostatic discharge (ESD) and/or over-voltage is essential while handling the product:

- Always ground yourself before removing the protection cap from the connector and during installation.
- Always discharge the feeder cable before connecting it to the antenna.
- Do not exceed the supply voltage range specified in the product datasheet
- Observe the polarity of the power supply

All HUBER+SUHNER products are functionally tested prior to shipping. HUBER+SUHNER does not take responsibility for damage caused to the ESD-sensitive device due to improper handling during unpacking or installation.

HUBER+SUHNER is certified according to ISO 9001 and ISO 14001

#### WAIVER!

It is exclusively in written agreements that we provide our customers with warrants and representations as to the technical contained specifications and/or the fitness for any particular purpose. The facts and figures herein are carefully compiled to the best of our knowledge, but they are intended for general informational purposes only.
