

HUBER+SUHNER®
SENCITY® ANTENNA
FOR WIRELESS COMMUNICATION

Mounting Instruction

Keep away from catenary and high voltage lines.
Be careful when working at height!
Always secure ladders!
Always tighten screws!

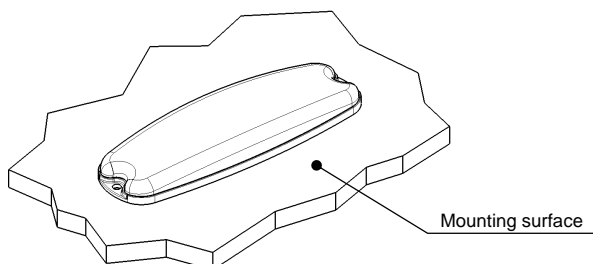

The contact with acetone,
gasoline and oil, should be
avoided.

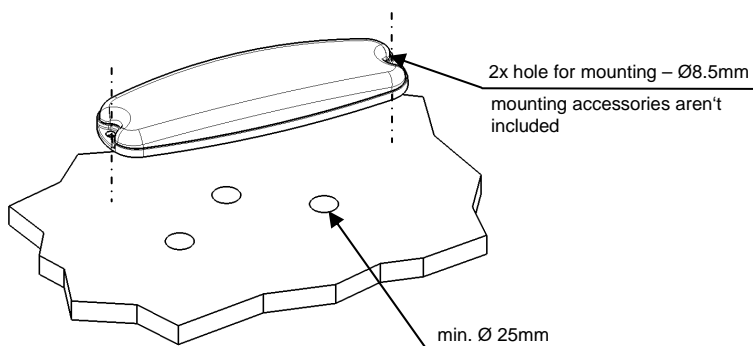

Dimensions in millimeters [mm]

Mounting surface

The area of the roof where the antenna is mounted has to be planar and stable.

Drilling of boreholes and preparation of roof

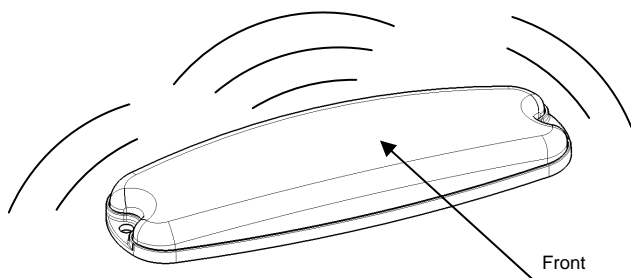

Product shall be mounted with 2 screws.
Please use the drilling template on page 2.

Clear the area, where the antenna is mounted
from paint, corrosion or any anodized layer.

Clear this area from any dust, brake dust,
cutting chip, oil or fat.

Connection of cables

Please avoid any metallic material in front of
the antenna or beside it.

Connect cables and use cable holder to avoid
any tension forces on the connectors.

General remarks

HUBER+SUHNER is certified according to ISO 9001, ISO 14001, ISO/TS 16949 and IRIS.

WAIVER!

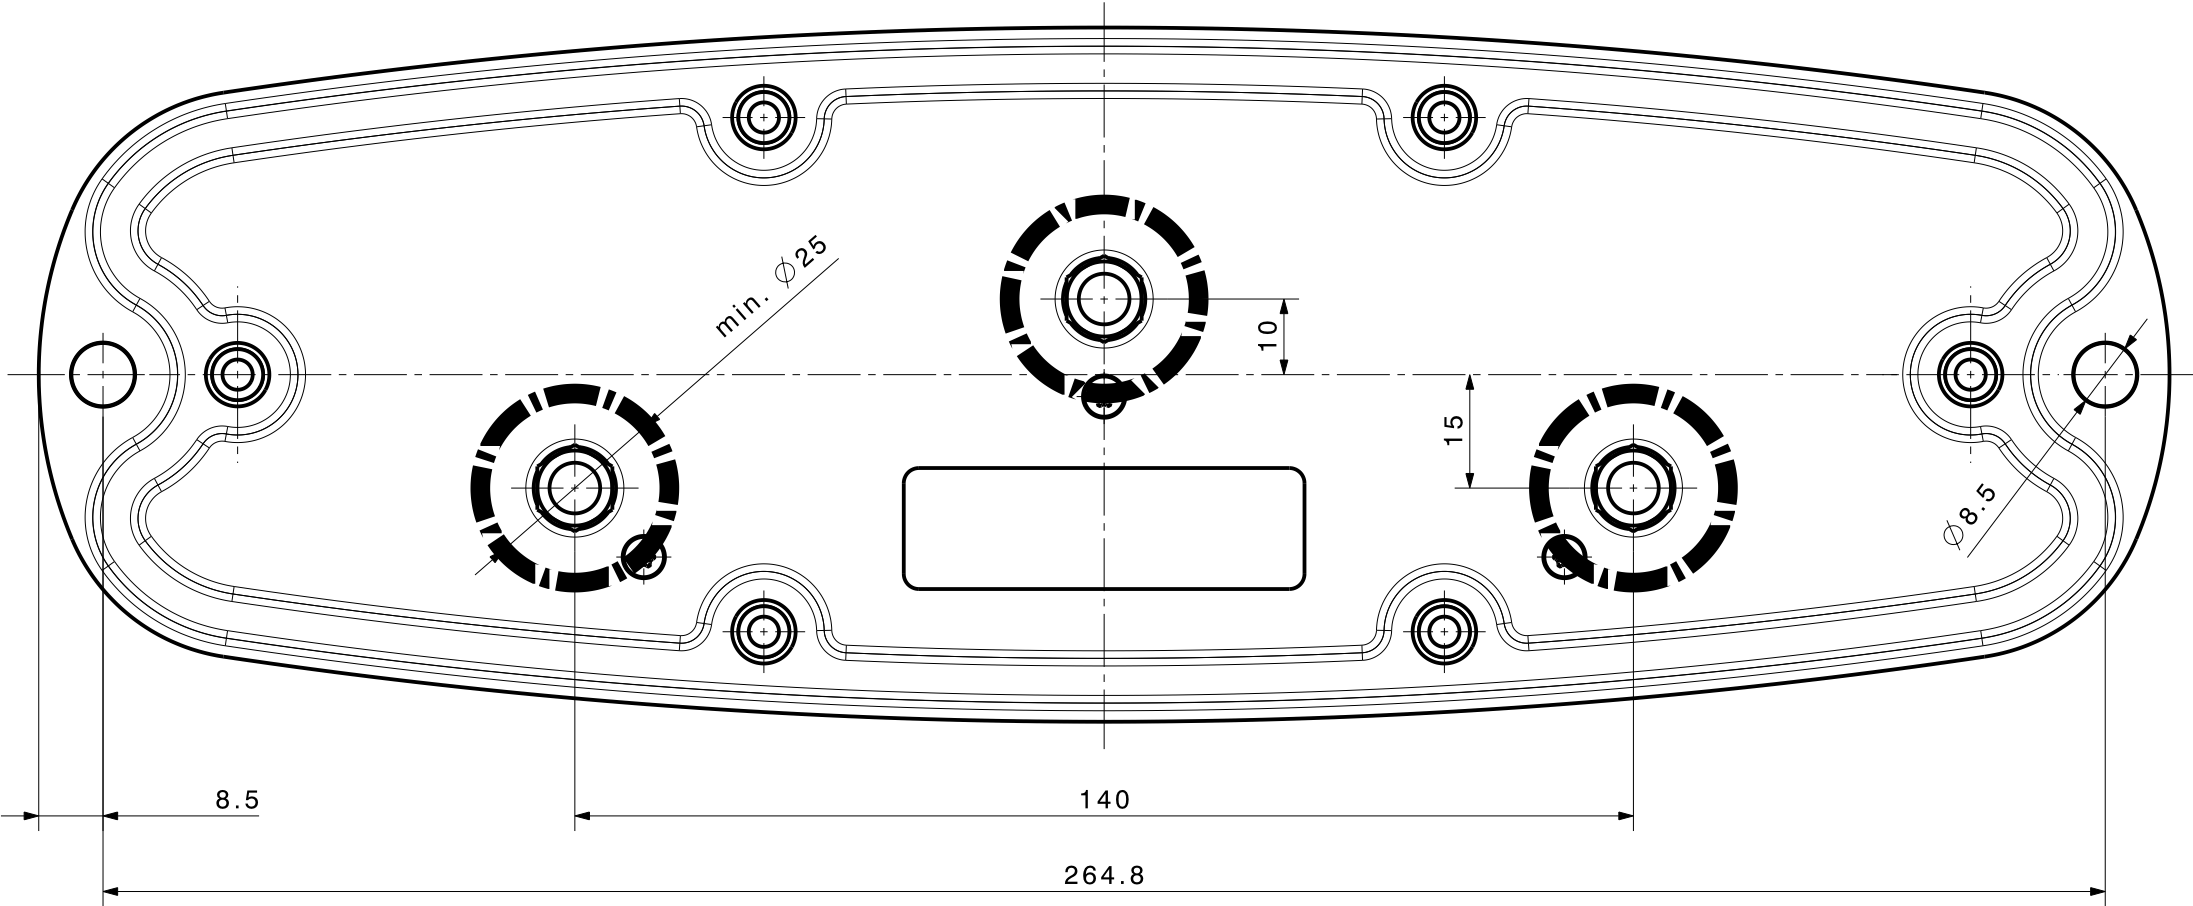

It is exclusively in written agreements that we provide our customers with warrants and representations as to the technical contained specifications and/or the fitness for any particular purpose. The facts and figures herein are carefully compiled to the best of our knowledge, but they are intended for general informational purposes only.
