

NEP - Self-Agglomerating Tape
For Tightening and Insulating

Description:

Self-agglomerating Ethylenpropylen (EPR) Rubber, non adhesive, Highly elastic (1000%), not hardening. Waterproof. insulating (35 kV/mm), U.V. resistant. Temperature range -40°/ +70°C. Packed in rolls with protective film.

NEP - Nastro Autoagglomerante
Per sigillatura e isolamento

Caratteristiche:

Gomma etilenpropilenica (EPR) autoagglom., non adesiva. Grande elasticità (1000%), non indurente. Impermeabile, isolante (35kV/mm), resistente ai raggi U.V. Temperature d'esercizio -40°/+ 70°C. Confezione in rotoli con pellicola protettiva.

MATERIAL

EPR

* Remove protective film and wrap the tape, pulling it strongly.

* The operation is completed. Bandage is waterproof.
